LC380M V2.2

Micro ATX

The Micro ATX PSU by LC-POWER offers a good price-performance ratio. The LC380M V2.2 uses a similar design as the ATX models with the big fans: thanks to its 80 mm fan, the power supply lets you experience a stress-free and silent work in your office as well as at home. Despite the low sound level, the power supply offers a good cooling capacity for your system thanks to its ventilation grille on its back. The power supply features all relevant connectors of the office sector.

Including PFC (power factor correction for an efficient use of the spent energy).
